Experience

Boehringer Ingelheim Pharmaceuticals Inc. Ridgefield, CT
Regulatory Affairs Co-op *Jul 2025 - Jun 2026*

- Assisted in preparation of CBE-0, CBE-30, and PAS submissions across 15+ products, including cover letters and leaf titles, to support post-approval changes
- Supported reporting-impact categorization of post-approval changes and contributed to Annual Report compilation for NDA and BLA products to sustain lifecycle reporting compliance
- Analyzed 65+ FDA Information Requests across IND, NDA, and BLA submissions to identify recurring deficiency trends, leading to confirmed revisions in 4 key dossier templates
- Reviewed and annotated Module 3 manufacturing process descriptions and CMC submission content against FDA guidance to strengthen regulatory accuracy and submission readiness
- Built a tracker identifying secondary DMF and Letter of Authorization gaps across 40+ container-closure cross-references, flagging 10+ for corrective revisions in U.S.-approved NDA/BLA dossiers
- Conducted proofreading of package inserts, cartons, container labels, and Instructions for Use across biologic and small-molecule products to verify content accuracy and compliance with FDA labeling standards
- Performed review of submission packages, verifying eCTD compliance, version control integrity, document completeness, and resolution of outstanding documentation gaps prior to filing

Meshayu Consultants Pvt. Ltd. Ahmedabad, India
Regulatory and Quality Trainee *Jan 2024 - Jul 2024*

- Performed regulatory change-impact assessments for formulation, manufacturing-process, equipment, and documentation changes to determine potential submission and compliance implications
- Supported preparation of manufacturing-license and product-permission applications to State FDA authorities for APIs, excipients, finished dosage forms, cosmetics, and medical devices
- Compiled Certificate of Pharmaceutical Product and WHO-GMP certification applications to support export approvals for APIs and finished dosage forms
- Drafted responses to State FDA deficiency letters, coordinating supporting evidence and revised documentation to address authority questions and progress pending applications

Kamla Amrut Pharmaceutical LLP Mehsana, India
Quality Intern *Dec 2022 - Nov 2023*

- Completed real-time entries in batch manufacturing records during sterile manufacturing activities and reviewed completed records for accuracy, completeness, and GMP compliance
- Authored initial deviation reports and supported investigation through documentation, root-cause evaluation, corrective actions, and closure in accordance with GMP procedures
- Assessed change controls for manufacturing-process, equipment, and specification changes to support compliant implementation and regulatory-impact evaluation

Project Experience

REALM Bio | East Africa Cell and Gene Therapy Regulatory Analysis
Experiential Project

- Contributed to a comparative regulatory analysis on cell and gene therapy access in Kenya and Rwanda, comparing FDA, WHO, and East African regulatory frameworks
- Identified alignment with the African Medicines Agency and FDA/EMA standards as a critical regulatory pathway to support advanced-therapy access in sub-Saharan Africa
